- Spectrum Society for Community Living

October 17, 2005

Dear Teams;

Jan Mareels and Ray Hunter have joined with 45 other climbers to show BC that people with disabilities have dreams and can achieve big things. They are going to climb Mount Kilimanjaro in February 2006.

To make it happen, we have to raise some money – to pay their travel costs, guiding costs and equipment expenses.

One way that we would like to support Jan and Ray is through an employee 50/50 draw. Every payday, participating employees would have \$4.00 deducted from their net pay. The names of the participants would be shuffled and a winner selected. The winner would get 50% of the jackpot and 50% would go to the Climb for Community Living. We would like to begin the first draw with the September 30th payroll.

If you are interested in participating in the 50/50 Draw on each payroll, please add your name and signature to the list below.

Thank you for your support!

I would like to participate in the 50/50 Payroll Draw and agree to have \$4.00 per paycheque deducted as my contribution.

SUBMIT	

You can withdraw from the draws by notifying payroll four days in advance of payday.
